Live Auction

Letter from the Auction Chair

Welcome!

Thank you for coming to the 7th Annual Wheeler Magnet Auction. Your choice to be here is a testimony to your commitment to help provide the best education and environment for our program. Tonight, there are numerous items to bid on to impact the success of our students; your donation will directly purchase something that will enhance their learning and keep our magnet on the leading edge of technology.

This year we are proud to partner with two other Wheeler Programs: Art and Culinary. The art displayed and sold is from our very own Wheeler students. The Art teachers and auction volunteers helped to run an art contest and coordinated talented students to enhance the décor for us. The Luau appetizers were provided by our Culinary teacher, Lyvonda Crumb, partnering with our Culinary coach, Chef Alex Reethof. Chef Alex is the father of two magnet alumni and has generously donated a Gourmet Cooking and Dinner for 12.

We are grateful for all our donors and sponsors. Please stop by and tell them how much you appreciate their support.

Thank you to the many volunteers you will see listed in the program. They worked very hard to make this a fantastic event.

We hope you enjoy the evening and know that you are investing in many bright futures.

Patricia Cummings
Auction Chair

*Letter from
Dr. Stark*

Dear Wheeler Magnet Parents, Family, and Friends,

I am so excited to be back at another Magnet Auction! This is truly one of my favorite events of the year. Not only do we have the wonderful opportunity to raise some funds for our students and teachers, but we also get to enjoy each other's company in a relaxed and fun atmosphere.

I am thrilled about all that has been taking place at Wheeler this year. We have just recently had our FTC Robotics Team win the State Championship and the prestigious Inspire Award. This is a phenomenal accomplishment due to the hard work of so many students, teachers, and parents. This victory qualifies them to go on to the World Championships in St. Louis.

We have some really exciting things going on in the classrooms here at Wheeler as well. In the Engineering Research and Design course, we have a group designing and building a flight simulator. This project not only requires a great deal of expertise and hard work by the students, but it will also provide a great resource for Wheeler moving forward. What an asset to have a flight simulator right here on our campus!

We are also very close to fully implementing MATLAB into our math curriculum. Thanks to feedback from former students, we decided that it would be valuable to teach some MATLAB here before students head off to college. MATLAB is a powerful computing tool and programming software that is used in a variety of engineering and other applications. We have purchased the software, thanks to funds raised at the auction last year, and we are awaiting the last few steps of County software approval before we are able to fully implement the software in conjunction with the Georgia Tech Calculus 2 and Calculus 3 courses.

I hope that you all know how much The Center for Advanced Studies appreciates all that you do. Our vision is to make our program the top STEM program in the nation, and the resources and support that you provide throughout the year are so critical as we work toward that vision. Whether it is volunteering to monitor lunch in the courtyard, decorating bulletin boards, driving carpool, or financial donations, your contributions to the Wheeler Magnet Program are so valuable. The faculty and staff at Wheeler Magnet feel blessed by the support that you have given us over the years.

Enjoy the evening! I hope you find some great treasures, and I hope you are able to spend time developing friendship and perhaps starting new ones.

Gratefully,

Tiffany Stark

SILENT AUCTION RULES

- Bids must be made with legible bidding number.
- Minimum bids will be listed on Bid Sheet displayed with each item.
- If minimum bid is not bid, winning bid will be raised to the minimum.
- Bid number, amount and name must be printed for initial and each subsequent bid.
- The closing bid highlighted by an Auction Official constitutes the winning bid.
- A list of the winning bids will be posted outside the cafeteria shortly after the close of each Auction section.
- Silent Auction sections open and close at times designated in this program. Closing times will be announced throughout the evening.
- Bids placed after the closing time for each section are invalid.
- Item values may have been rounded up to the nearest dollar.

PROCEDURE FOR DISPUTES

We know from the past, that there will be a number of items that will draw the attention and excitement of a few competing bidders. We want everyone's experience at the auction to be a positive one. In our efforts to ensure that goal, we have instituted a way to handle situations where one or more bidders want the same item at the final bell. Should you find yourself in this position, get the attention of an auction monitor (recognizable by their auction nametag.) By raising your hand in the air, it will signal a monitor to come over and give each of the interested bidders a slip of paper and a pencil. The bidders will then be given a moment to confidentially write down their highest bid on the item as well as their bid number. These slips will then be returned to the monitor who will review them and announce the winning bidder. It's like your own mini live auction! In this way, each bidder's experience will be a fair and enjoyable one.

Did you know you can use the Wheeler Culinary Department for your events?

Lyvonda Crumb has been teaching Family and Consumer Sciences for 31 years. She received her Bachelor of Science degree from Carson-Newman College. She then continued her education at the University of West Georgia and received her Master's degree from Lesley University in Cambridge, Massachusetts. In furthering her education, she has also completed Le Cordon Bleu's endorsement classes as well as the National Restaurant Association's Culinary 1 and 2 classes. She has also completed a summer study in culinary at the Art Institute of Atlanta. Additionally, she most recently completed an internship at Houlihan's under Chef Kory in Marietta, Georgia.

Among other awards, Lyvonda has been awarded the F.A.C.S. Teacher of the Year Award for the State of Georgia. The Wheeler High School awarded Ms. Crumb the Martin Luther King Jr. Humanitarian Award in 2008.

Just this month, the Culinary department was cooking up a wonderful dinner for the cheerleading banquet. Contact Wheeler Culinary for your next event: Contact: Lyvonda.Crumb@cobbk12.org
